OTHER INTERESTS

During the snowy months I enjoy snowboarding, staying in and drinking hot cocoa while reading a fantasy novel or playing Mario Kart for the Wii. When the weather warms I enjoy soccer, tennis, hiking, rafting, biking, and all outdoor activities. I love photography and capturing those things we see everyday, but don't necessarily pay attention to. I enjoy the creative process when I am compiling and manipulating my photos into an art piece. I love swing and tango dancing. All in all, I enjoy the gift of life and knowing that I live in a world where I can pursue all my dreams and aspirations and be happy through all these experiences.
